Animal Production – FADN Data – EU Comparison

PRAGUE, MAY 2022

Audit work

Funds Spent to Support Animal Production (Nr. 18/08)

- ✓ The audit aimed to review the management and support system in the animal production sector, including the setting of strategic objectives, and verify whether the funds provided contributed to the anticipated benefits and effects.

- ✓ Audited entities:
 - Ministry of Agriculture,
 - State agricultural intervention fund
 - Final beneficiaries

Final results in audit conclusion

Funds Spent to Support Animal Production (Nr. 18/08)

- ✓ *...The Farm Accountancy Data Network's (FADN) data analysis shows that the Czech Republic pays above-average subsidies to the animal production sector in comparison to other EU Member States. In 2016, the subsidies granted to all monitored production sectors increased compared to 2010, except for cattle breeding.*
- ✓ Special Data Annex to the Conclusion No. 18/08 on the NKU's web sites <https://www.nku.cz/scripts/detail.php?id=10419>

Chart 1: Development of operating subsidies to agricultural holdings according to the production orientation per livestock unit

...The volume of subsidies granted to animal production in the Czech Republic is far above the EU average in all production sectors on a long-term basis, except for the sector of pig and poultry farming. Subsidies allocated to this sector have increased since 2013.
